## 2026 Southampton Rose Society Rose Show Exhibitor Guidelines

- **ALL ROSES MUST BE ENTERED AND PLACED** and ready for **JUDGING** by 9:00 am.
- Exhibitors can come to the library as early as 7:30 am to prepare your roses for the show.
- The show is governed by the standard rules, regulations, and guidelines of The American Rose Society (ARS).
- All entries are to be grown outdoors by the exhibitor.
- To help the day run smoothly, we strongly suggest you get your rose tags before the day of the show. If you would like tags in advance, please e-mail your request to [sh.rosesociety@icloud.com](mailto:sh.rosesociety@icloud.com) or check the following locations: Rogers Memorial Library circulation desk or Fowler's Garden Center. Tags will also be available on the day of the show.
- Before you arrive, please have your roses show ready and your tags filled out with your name, the rose name, etc. Attach the tag with an elastic band to the neck of the bottle and be sure your tag is filled out completely.
- It's important to know the name of your rose and its classification (for example, "hybrid tea," "grandiflora," or "shrub rose"). If you know the name of your rose, but you don't know its classification, you may check its category in a copy of the American Rose Society Handbook for Selecting Roses, which will be available at the show. The handbook can also be ordered on the official ARS site- [American Rose Society Website](#).
- If you don't know the name or classification of your rose, SRS volunteers will also be at the event to help you the morning of the show.
- At the show, a Rose Show official will check them and place them on the show tables for you....and that's it!
- Feel free to send a message to the Southampton Rose Society at [sh.rosesociety@icloud.com](mailto:sh.rosesociety@icloud.com) before the show if you have any questions.

It is not uncommon for a novice to win a trophy!

## Trophy Notes

- IF YOU WIN A TROPHY OR A RIBBON, please be present promptly at 3:30 pm for our awards presentation.
- Only members in good standing of the Southampton Rose Society may take possession of a trophy.
- Not a member? New exhibitors and members are welcome. Membership in the SRS is \$60 and may be purchased online at [southamptonrose.org](http://southamptonrose.org) or at the show.
- Trophy winners are responsible for engraving trophies *at their own expense*.
- If you do not plan to engrave a trophy with your name, then do not take a trophy home.
- All trophy winners will be asked to sign out their trophy and pose for a photo.
- Any ribbons you win are free for you to take home.
- Trophies must be returned engraved and polished to the SRS no later than May 2027 to be awarded to a new winner at next year's show.

## Visitors

The event will open to the public from 1:30 to 4 pm after the judging has finished. We encourage members of the community to come see all the beautiful roses and arrangements exhibited at our show...and we hope visitors will take time to learn more about the work the Southampton Rose Society does in our community. New members are ALWAYS welcome!

## What And How to Exhibit

---

Roses are shown by their **American Rose Society** Exhibition *name and spelling*. With the exception of roses listed as Large Flowered Climbers, all types of roses listed as Climbing Sports are entered in the respective bush type classes.

A bloom is to have *one-bloom-per-stem* with no side bud(s). However, Shrubs and Old Garden Roses may have side bud(s). A spray is to have two or more blooms with or without side bud(s). Foliage should be clean and free of spray residue. It's most important that *stem length should be proportional to the size of the bloom*.

All roses are shown in exhibition stage unless otherwise noted. Exhibition stage blooms should predominate in a spray class. At the time of judging, an exhibition stage rose should be at its most perfect phase of beauty, which is usually *one-half to three-fourths open*. A bud is to show full color and be not more than one-fourth to one-third open; a fully open bloom must have stamens easily visible.

Exhibition type roses have a high center with petals arranged in an attractive circular outline. Decorative type roses which lack a high center and circular form tend to be loose and informal. Note the difference between exhibition type roses and exhibition stage of beauty (defined above).

The clear glass containers supplied by the club will be used as follows: large containers for collections of two or more stems in water; smaller bottles are for the single stem Specimens.

Entries are disqualified for the following reasons:

- Misnamed, misclassified, or unlabeled;
- The appearance of the exhibitor's name in any location other than the designated places in the entry tag;
- Presence of foreign substance applied to the foliage, stem or bloom to improve the appearance of the specimen;
- Not dis-budded if exhibited in a Class of one-bloom-per-stem specimens;
- An entry in violation of American Rose Society Rules or local society rules;
- An entry placed or groomed after the close of entry time;
- Presence of exhibitor on show floor during the judging if not authorized by Show Chairperson.

## Sections/Classes

### SECTION 1- Single Exhibition Roses and Sprays

For single exhibition roses and sprays for which ribbons and/or trophies are awarded. Names of roses are the exhibition names from the current year's *ARS Handbook for Selecting Roses*. All entries will be arranged on tables alphabetically by exhibition name within each **Class**. The exhibitor may enter only one specimen of each exhibition named rose per **Class**. There should be one stem under water.
